Co-Operate

Co-operation is the combination of effort with the object of accomplishing a common desirable purpose.

Your purpose is to get with the least possible trouble to yourself the highest market prices for your grain.

Our Task is to Render YOU that Service

The conditions are such that our success cannot possibly come about in any other way.

This is the safest, soundest basis for co-operation.

Let us help to settle your marketing problem, whether in grain or livestock.

Shake a few dollars from your roll and hand it over to the Patriotic Fund--and don't be too modest about the amount.

The Women's Institute.

The Bow Island Women's Institute recently elected the following officers for the year ending December 1917:—
President, Mabel Bromley; 1st Vice Pres., Louise Werts; 2nd Vice Pres., Agnes Dulmage; Secy-Treas., Maud McWilliams; Directors—Laura Blaine, Gertrude Stewart and Nellie Rolfe.

We start the new year with 17 members. An urgent invitation is extended to the country ladies to "Come and meet with us. The fees are only 25 cents a year. The January meeting (3rd Saturday) will be held at the home of Mrs. Bromley.

(Contributed.)

Our Institute is not for the amusement of a select few. It is a strong, live, active organization, and every woman and girl in the town and country should be brought under its beneficial influence.

If the girls and women throughout the rural districts knew the real value of the instructions afforded in the lectures given in cooking, sewing and home nursing the Department of Agriculture would be flooded with applications for these lines of work.

The residents in our cities have been given the advantage of domestic instruction while the residents of our rural districts have not been so favored, and it is most gratifying to the department to be in a position to take to the women in outlying districts systematic instruction in domestic science and domestic art.

Justice toward children and training of children are topics worthy of discussion and taught through the efforts of the Institute.

The main object of the organization is toward the betterment of the conditions prevailing in home life by teaching the highest ideals of home life and the pursuit of purity by a wife, a wife right kind of children, by fostering patriotism and love of country, so that the women of this glorious land in full of promise, may prove a power in the upbuilding of the great Dominion of Canada. Can there be any higher ideal?

The Institute also takes up the topic of how to make the home life so pleasant that the young people do not need to seek their pleasure outside. Let mothers lay aside the sewing and fathers their newspapers and road, play and sing with the boys and girls. A healthy family atmosphere will not fail to make itself felt, and will be a never failing magnet in the coming years to draw the scattered members of the family back to the old home.

Cheerfulness in the home, business methods of housekeeping, hygiene and proper sanitation are also agitated by the Institute.

The terrors of the white slave traffic is dealt with by the Institute and good instructive lectures are given by the society to encourage good, wholesome, pure lives in the families of this country and to use all efforts to abolish the white slave traffic in our fair land.

Gardening and school gardens and school fairs are conducted with the co-operation of the women's Institutes.

The Department sends out vegetable and flower seeds and also a number of grains and grasses to be used for experimental purposes.

Poultry keeping also comes under this subject and is encouraged by the Institute.

There are so many benefits of the Women's Institute that it is impossible for me to give details of them all. I might say that every good pertaining to the home and family are dealt with by the Society. One of the greatest benefits derived from the Institute is the socializing created through the meeting together of our members from time to time, where personal views are expressed and a social time spent.

Mabel L. Dulmage.

Sad Accident.

Cowen Humphries of Lethbridge held an enquiry here on Monday night into the circumstances surrounding the death of Charles Greenlund. Will Cowen, who lives about four miles east of town on the north-east of 35-21, stated how a neighbor borrowed a gun of his and "stunned it Sunday, placing it in a corner. Just after he heard a shot Charles Greenlund, who was living with him, came in and sat down. Seeing the rifle in the corner, Backlund picked it up and the rifle went off, the bullet striking Greenlund in the neck. The latter had lived a few months after Ed Backlund, who is about eighteen, apparently felt his position keenly. He described how he was holding the rifle diagonally across his body, and as he was not aware the rifle was loaded, he could not say exactly how it went off.

The coroner stated he was quite satisfied with a mere accident, but nevertheless admonished Backlund for his want of caution.

The man deceased was a brother-in-law of Backlund's, and had a wife and child residing at Elbert, Wash., who were preparing to join him at their late residence.

The funeral took place from Bedell and Co.'s undertaking parlor on Wednesday evening, when a short service was held, the remains being then taken to the depot to be transferred to Washington.

Elections.

The municipal elections for the town of Bow Island were noteworthy this year, partly for the large vote polled, but more particularly for the manner in which the election "swung" in the voting. Committee not one of whom was returned. The vote was announced on Monday night at 7:15 as follows:

J. M. Bratton, 83; A. E. Dulmage, 49; J. C. Fife, 47; H. G. Gandy, 47; D. G. Smith, 23; F. W. Brown, 25. The elections in the Rural Municipality of Bow Island also resulted in a change, the candidates elected being as follows:—F. W. H. Hockley, 108; J. Clarke, 65; A. Gigg, 60; W. R. DePew, 58.

The meetings were much larger than was anticipated.

The following assisted in the program.—Mrs. Fletcher and Mrs. Robinson of Burdette, Mrs. (Dora) Peterson, Miss Scott, Mr. Dryden, and Mr. and Mrs. L. C. Johnson. Mr. Smith presided at the piano and the Methodist Church choir under the direction of Mr. and Mrs. J. L. Jamieson rendered two anthems. At the close the ladies served coffee and the men served sandwiches. The bill was mounted to \$10. The thanks of the Church board are tendered to all these people for their services. The chair was taken by Mr. A. F. Werts.

McCAULEY-MURPHY.

A quiet wedding took place at Glasgow, Alberta, on Tuesday December 13, between Mr. and Mrs. John United in the holy bonds of matrimony Miss Stella Pauline McCloskey of Montreal, Quebec, and Mr. John Murphy, of Williston, N.D., and formerly of Bow Island. Mr. Murphy is the eldest son of Mr. and Mrs. M. T. Murphy, of 172 N. Main Street, Kalispell, Montana.

Dealing With Deserters

Offenders Committed to Jail May Be Handled Over to Military Authorities

The following circular relating to desertions from the military forces has been promulgated by the government:

"In any case where a man of the active militia or a soldier of the Canadian overseas expeditionary forces, is convicted of deserting or of absconding, he shall be liable to the unit to which he belongs without the leave of the commanding officer of such unit, or to the court martial to a term of imprisonment before the court of justice who imposed the sentence, upon the application of the said commanding officer or of the commanding officer of the unit upon the offender agreeing to return to his military duties and not to re-enter the service of the militia or the corps or unit to which he belongs, and the sentence delivered to the military authorities instead of being committed to jail and serving his sentence, he may be committed to jail, may order his release therefrom, and if he does not commit to the military authorities.

What Is To Be Done?

Measures Must Be Taken to Make War Safe

This war has proved that, when it comes to war, no means of slaughter are too foul to be used, no pledge too base to be given, no international agreement too strong to be torn up. Who are the people going to do about it? Are they going to allow their cathedral domes, church steeples, campaniles, fortifications, fairs, stations, schools, colleges, banks, and domestic architecture to fall, along with the walls, towers, and ruins whenever kings and diplomats give the word? Who will loose the birds of prey? Destruction by ship is only part of an immeasurably vast and terrible war. The future wars which are now being sown bear their natural fruit, and the present war will be followed by still more destructive in every generation. Europe within a century will be hardly inhabited and hardly habitable—the nation, London.

Ruins of Babylon

All That Is Left of the Tower of Babel in an Immense Cube of Brick Work

No grit of the world is as rich in ancient remains as the valley of the Euphrates, in Mesopotamia. When it is remembered that the tower of Babel is one of the Garden of Eden here, who amongst its many ruins are those of ancient Babylon, the promising nature of the valley to the scientist becomes apparent.

It is near the ruins of Babylon that is found what many scholars believe to be the tower of Babel—an immense cube of brick work, called by the ancient Greeks "the tower of Babel," because of the confusion of language which it was believed had been created at the site of the strange pile and its site has revealed to us. It is said that the tower stood here composed of seven stages of brick work on each stage, and was built of mud, stone, and timber. It is said that the tower was of a base measurement of nearly six feet square, and that it was unknown height. Even today, the ruins rise some hundred and sixty feet above the level of the surrounding plain.

Only the uninformed endure the folly of coming to know the cost of HOLLOWAY'S CORN Cure and get relieved.

FELL FROM LOFT; HURT, THEN WELL

How a Man Who Landed on Wood Pile and Was From Head to Foot Found

Quick Relief

Once upon a time Edwin Pantam, who lives in a very pretty hamlet of Wendell Depot, Mass., climbed up into a loft to get some building material for his house. He was climbing in the country must often do. Suddenly he slipped and fell. Fortunately he did not break any bones, but he was cut and gashed and gnashed. It was a nasty tumble. Mr. Pantam, however, was lucky, for although he lay there, he was covered with bushes, and was soon found by his wife.

The next day he bought a bottle of Sloan's Liniment which had been recommended to him by his doctor or the corps or unit to which he belongs, and the lame ness had disappeared. Sloan's Liniment can be obtained at all drug stores, 25c and \$1.00.

Sloan's Liniment KILLS PAIN

Some Exceptions
Wife, there now! This paper says that married men do not have wives to take in washing.

Husband: But, my dear, all of us haven't wives to take in washing.

New York Weekly.

Judge: You can take your choice.

Prisoner: I'll (sic) take the money, y' hono'r.

—Sleeplessness.—Sleep is the greatest blessing we possess. The loss of sleep is the cause of ill, indigestion, nervous disease, and other maladies. The course of Parmentier's Vegetable Pills. By regulating the action of the stomach, these pills will restore normal conditions and healthful sleep will follow. They exert their influence over the body where there is unrest they bring rest.

Auto Improves Worship
The Presbyterian Board of the United States state in a special report that the automobile and scattered communities is helping to swell church attendance. Farmers come to town on Sunday mornings, and their wives and families in the evenings.

A Modern Villain

Through the wealthy retired Macus Peil, the wealthy retired hunter, watched Harry Harrison, the village blacksmith, as he worked in his strong, young arms.

"Curse!" he hissed. "I'll have to pay for a wedding present and they took all the goldsmithing tools to buy gasoline!"—Kansas City Journal.

Murd's Liniment Cures Garter in Cows

A Big-Grain Elevator
Concrete Elevator at Fort William With Storage Capacity of 3,500,000 bushels

One of the greatest of all elevators is the concrete grain elevator which has just been completed in Fort William, Ont. The storage capacity of the elevator is 3,500,000 bushels, or about 3,500 carloads.

The concrete foundation of the concrete elevator is its marine unique feature. It is the largest of the largest boats in less than four hours.

The marine unloading cars are built to hold 100 bushels each and bushels an hour and are capable of unloading a big load less than

an hour.

It will be possible to load fifty thousand bushels of grain in freight cars in less than two hours and unload it at the rate of thirty thousand bushels an hour.

The concrete foundation of the great size and wonderful application for a grain elevator is incorporated in this elevator.

The fact that it is constructed entirely of concrete reduces the liability of fire, and with the cost of insurance.

Waste in England

At home the government has to practice economy and interfere with the rate of expenditure on the army is, as we have said, a good sign.

Many examples of the wasteful use

of men who have been added

to save any time doing nothing

but causing a continual germ

of discontent among the men.

It is the same with the

army, who adds that England

has recently equipped her men in

the field with steel helmets modelled after

the new headgear, 300,000 of which are

reported to be in use in the British

army.

Light in weight

and strong, they are capable of

standing upright at the spot

in time they fail to stand

on their feet.

The British government

has recently issued a

new uniform for the

army.

It is the same with the

army.

It is the

AUDITORS' REPORT & FINANCIAL STATEMENTS
FOR TEN MONTHS ENDED 31st OCTOBER,
1916.

(AUDITORS' REPORT)

Medicine Hat, Alberta

18th November, 1916.

His Worship the Mayor and Councillors.

Town of Bow Island.

Bow Island, Alberta.

Gentlemen.—

We have examined the Books and Vouchers of the Town of Bow Island for the period ended 31st October, 1916, and beg to report that in our opinion the Balance sheet presented and forming part of this Report is properly drawn up to exhibit a true and correct statement of the Town's affairs as at that date according to the best of our information, the explanations given and as shown by the Town's books.

The Audit Committee is advised to be aware that the previous

of By-Law No. 23 has been duly charged against the earnings from the Gas Department and the money deposited in the Gas Fund.

REPORDED BY,

HENDERSON, REID & COMPANY

District News

Flowering Valley.

Seven miles north east of Winnifred. December 6th.

Mr. Mondon has moved to Medicine Hat.

Threshing has been completed in this district.

Mr. Brethour has just purchased an up-to-date windmill.

Miss Laura Johnson just returned home from Mr. Begg's.

Mr. Walter Johnson is the most recent purchaser of a new automobile.

The name of LaLinhiser was erroneously spelled Lanisher in our last issue.

And but two more weeks until the close of school and then Xmas Holidays!! Hurrah!!

It is to be a box social and dance at Rocky Lake, the date being set for Friday, the 15th.

Mrs. Collins wife of the teacher of Rocky Lake school has gone for a visit to her folks in Lethbridge.

Mr. Johnson, Miss Rapson and Miss Johnson recently attended the big dance at the Hotel Myrtle in Bow Island.

A box social and dance will be held in this District shortly and the exact date will be announced in our next issue.

Mr. Philip Rapson, father of Mrs. S. H. Brethour has been on the sick list as also have Mr. Scown and Miss Greta Rapson.

Mr. S. H. Brethour and Mr. Bryant were hook-killing Monday. The dressed product weighed 11 cents per pound in Winnifred.

It is said Brethour and Co's big threshing outfit has gone into winter quarters, having completed a most satisfactory season.

Mr. Philip Rapson and his sister Miss Lillie Rapson are going away east for the winter, as are also the family of Mr. Char, Dwyer.

A big raffle and supper was held at the residence of Mr. S. H. Brethour on Saturday night, the house being filled to overflowing. All the poultry was disposed of, ducks bring \$1 each and turkeys \$4 each.

A public sale and daylight entertainment will be held in our school house on the afternoon of Friday, December 22nd, and in all likelihood a dance at night. Parents will bring their baskets and the trustees have promised a generous donation for Xmas box bouquets!! Everybody invited.

Mr. Mason, senior trustee of C.P. monorail School District 2400 who has been in the Medicine Hat Hospital for some time, is about to be removed to Rochester, Minn. His eldest son Daniel died in Medicine Hat Hospital last August, and his second son who enlisted in the 17th, is now in the trenches. This family has suffered much late.

In all phases of their work, Articles by practical farmers form a considerable section of the paper, some being topics set weekly for discussion, with prizes awarded for the best. The live stock, machinery grain, poultry and other departments are live and up-to-date; veterinary and legal questions answered free by experts, are popular features, as are the ever interesting "Questions and Answers" in their columns. Although issued weekly, in high class, flat magazine form, with cover, the subscription price of \$1.50 per year, and is big value for the money in these days of increased paper-prices and high costs of printing.

The Farmer's Advocate and Bow Island Review can both be obtained for \$2.25.

THINK IT OVER.

A time will come when enlightened farmers will realize that the farm household is the source of all energy, enterprise and intelligence that makes farming a success and life on the farm possible. It is the indefatigable farmer's wife that makes the farm home; altogether to often she makes it a real home in spite of her husband rather than as a result of his co-operation with her. He, to his shame, is often too busy for a greater appreciation for logic, cattle, grain and hay, which prove him a good husband and that the equipment and environment that make practicable the proper rearing of his own children. Yet he will complain that the young people will not stay on the farm.

Apply Egan, poundkeeper.

Farms Wanted.

Anyone having farms to sell or rent, call in and see D. Needham, office corner of Bell Street and Lethbridge Ave. (near railway crossing).

Job printing at the Review office receives prompt attention.

All Things... Considered.

"ABOUT CHRISTMAS."

He might come. Intellect and culture wealth and Power were out seeking the Child that night. But the poor were ready too. Eagerly waited was a poor woman. She made what preparations she could, but she had not much.

* * *

And on that night some strangers came; a man, a woman, and a child. The experience of living in the Child Most beautifully was expressed as I saw it, before thousands, in London, but no more beautiful scene than the transformation which was brought about, with the most perfect musical and scenic effects. We saw the figures of St. Joseph and the Virgin Mary and Child in the manger.

* * *

We shall be eran full of ghost stories, novels, war literature. But all these shrink before the astounding beauty and simplicity of the story of shepherds of Bethlehem.

For years we have forgotten the religious side of Christmas. And after all the thing is purely religious. We have forgotten....Take our Christmas cards. What would a heathen gleam from them about our Festival?

Not very much.

* * *

Cynical people say that the one idea we in the West have of a Festival is a funeral. It would almost appear to be true, judging by the crowds that come out, ready with tearful eyes and hand-clenched in hand. It should not be so if indeed we call ourselves Christians. Why is the sad note alone appreciated?

I think the children alone love Christmas. They love the whole thing. Child, and manger and shepherds; all these they understand. But for us older folks the words still remain true: "She laid him in a manger because there was no room for him in the inn."

If we don't go to church let us go to the nursery.

* * *

"No room! It is very true isn't it? No room upon whom a Christmas card to refer to the great event of Christ's birth. No room for the Child. I once went to a play called *Eagleheart*. Like many beautiful things it was grand, airy. Through a certain city the Christ, who was to come again in disguise seeking for some to take him in. The city was in a whirl of excitement and all sorts of preparations were made,

before winter weather sets in the households should see that the heating equipment is fire-safe; that there are no cracks in the chimney to allow sparks to enter the attic; that furnace pipes are thoroughly clean and as safe distance from woodwork; that stoves, ranges and stoves are in safe condition and all surrounding woodwork protected, and that lamps and lanterns are in good condition.

Carlessness with matches caused fires last year; overheated stoves and furnaces, 50% defective and overheated chimneys, pipes, etc., 60% electric fires 55. These causes are all easily avoided and should be guarded against in future.

Homes should be made reasonably fire-safe by taking the simplest necessary precautions. Safety First is as essential in the home as at work.

Subscribe to the Patriotic Fund.

Like many beautiful things it was grand, airy. Through a certain city the Christ, who was to come again in disguise seeking for some to take him in. The city was in a whirl of excitement and all sorts of preparations were made,

The king and princess brought out wealth. The philosophers and scientists arrayed themselves to welcome the Child. No one knew what to house hold.

Owing to the likelihood of a Coal Strike, customers are urgently requested to place orders for their winter fuel with us at once.

Coal Mine situated on Sec. 6-8-10

Twelve expert miners will be immediately employed.

Remember, this is a local industry and your support is necessary if this mine is to be kept open.
